**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Status of the Claims***

Claims 1-53 are currently pending.

### ***Election/Restriction***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

#### **1. Species Source of complex biological sample:**

- A. Tissue species: e.g. epithelial or connective or muscle or nerve (claims 8-9); OR
- B. Body Fluid species: e.g. cerebrospinal or blood or saliva ... or synovial (claims 10-12) OR
- C. Organ species: e.g. skin or bone .... or B-cell (claim 13-14) OR
- D. Culture Species: e.g. epithelial or connective or muscle or nervous (claims 15-16).

#### **2. Species of "1st/2nd type of individuals":**

- A. diseased/nondiseased (claim 17) OR
- B. medicated/non-medicated (claim 18).

#### **3. Species of phage display library (claims 19, 21 and 22):**

- A. Antibody (claim 20) OR
- B. A Species NON-antibody species.

#### **4. Nature of the arrays in the different steps:**

- A. Steps c-f and j/k are the SAME arrays (claims 48, 50, 52) OR
- B. Steps c-f and j/k are DIFFERENT arrays (claims 49, 51, 53).

The above species recited in items 1.-4. above require different and separately administrative burdens; e.g. separately burdensome examination and separately burdensome manual/computer classification and/or bibliographic searches, thus making election of species for administrative purposes as indicated is proper.

**Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.**

In other words applicant MUST elect a SINGLE species from each of categories 1-4 as enumerated above.

For example, the following election would be responsive:

1. Species Source of complex biological sample: epithelial tissue (claims 8-9);
2. Species of "1st/2nd type of individuals": diseased/nondiseased (claim 17);
3. Species of phage display library: antibody (claims 19-22); and
4. Nature of the arrays in the different steps: Steps c-f and j/k are the SAME arrays (claims 48, 50, 52).

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include

Art Unit: 1639

all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

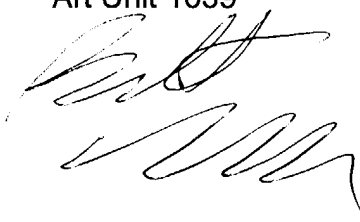

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bennett Celsa whose telephone number is 571-272-0807. The examiner can normally be reached on 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Wang can be reached on 571-273-0811. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
